Description

This bus has the robust T6 150hp engine and a manual transmission, eliminating the extra costs of a DSG. This model has proven to be extremely reliable. It's the Coast trim level, meaning it avoids potential problems associated with unnecessary modern technology (such as electronics or the hydraulic roof).

It was only driven in the summer and has never experienced winter conditions. It has always been garaged and is therefore practically like new.

It comes equipped with seat covers and carpeting. The gas stove, sink, and upper sleeping berth have never been used.

A television with an outdoor satellite system and its mounting bracket is also included.
